

Our notepads feature full-color printing and are backed with hard cardboard backing. And don't just think memo pads – these pads make smart score pads, presciption pads, receipt books, rebate pads, entry forms and much more.

- Option of 50 or 100 sheets per pad
- Two paper stock options: 70 lb. uncoated text (for easy writability) or 100# gloss text
- 7 standard note pad sizes or custom trim to size
- Note Pads will glue on the top edge, as indicated on the electronic proof
- Quantities shown in Instant Pricing panel represent total quantity of **pads** per order. Example, "5" quantity with the option of padding in sets of 50 equals 5 total notepads (each notepad will have 50

Personalized Notepads: The Perfect Choice

Need an individualized promotional piece that your customers will use over and over? Personalized notepads are the perfect choice! You can even go so far as to include your personal contact information or simply include your logo and web address for personalized notepads that promote your company every time your clients take notes.

Details: Personalized Notepads

- Quantity options in dropdown represent the total number of pads per order - not total sheets per order
- Full color on the front with color or blank back
- Personalized notepads are printed on 70 lb. uncoated opaque text, with a smooth finish for easy writeability. Gloss text option is also available.
- Seven standard note pad sizes, with custom trimming option available
- Note Pads will glue on the top edge, as indicated on the proof

Print Works offers full color printing, so you can create dazzling graphics and images. The best part is that your personalized notepads can be designed to reinforce your company image for easy branding that clients can't forget.

You can print your personalized notepads in 50 or 100 page increments. All personalized notepads are printed on a rigid cardboard backing to provide stability. With lots of sizes and trimming options available, you can give your

customer a useful tool that will keep your logo and contact information in front of your customers on a regular basis.

- **Pad Printing Benefits**
- A great way to keep your company information in front of your customers is with pad printing. Notepads are a useful, handy tool that your customers are likely to keep in reach, which means your logo and other branding information are also in reach. At PrintPlace.com, we make pad printing easy and painless with our Instant Pricing form and fast turnaround times so your notepads can be ready for distribution as soon as possible.
- Custom printed notepads are a great marketing tool for any business. Perfect as a take away at a meeting or slipped into a package of collateral materials, they will help keep your company top-of mind.
- Here are just a few tips to ensure that your notepads will be used by your clients.
- **Notepad Design Considerations**
- We do a lot of notepad printing, so we get to see the best and worst in design. One of the biggest mistakes you can make when designing notepads is to include too much information. Remember, you are providing your customer a tool. If you fill the notepad up with contact information and images, your customer may not even be able to use them. Keep the design clean and simple.
- Definitely include your logo and any basic contact information. Try to put your logo at the top of your design as this is where your customers' eyes are likely to scan first. Put your contact information at the bottom of the notepad. Keep the middle part – where your customer is likely to scribble notes – empty, if at all possible.
- **Notepad Sizes**
- PrintWorks provides many sizes to choose from – a small 4.25" X 5.5" all the way up to 11" X 17" notepads. Full color is our specialty, and notepad printing at PrintPlace.com is guaranteed to be brilliant and vibrant. Don't forget we can also handle full bleed, so your images go all the way to the edge of the page.
- We recommend using uncoated paper as this is easier to write on with ballpoint pens, although glossy paper is available too if you want colors that really jump off the page. Another method for notepads that get attention is to use our rounded corners option.
  Whatever your needs, PrintPlace.com is your pad printing headquarters. If you have questions about our services or need extra custom options, you

can call us or use our new “Live Chat” feature through our Help Center link at the top of the page.
